5:30 P.M.

Dear Jimmy,

It is like summer time out today. I drove up to the cabin and took Mrs. Lansing with me. I wanted to see if the wood I had ordered had been delivered and it had been, but it is the worst load of junk wood I have ever seen so I think I will tell the man to haul it away.

Last night John and Marie Donnelly came over for dinner and bridge. They are going up to the cabin with us next weekend. I really enjoy the Swedish class and I know if I spent a lot of time studying, it wouldn't be too difficult.

Uncle Jim is going to have an operation next Tuesday or Wednesday as his ulcers have

been giving him a bad time. That is a terrible operation because it means taking out part of his stomach.

Florence was here twelve days and eleven nights. I took her every place there was to take her and the best trip was when I took her to the depot and put her on the train to go back to Minneapolis.

I thought you would enjoy looking at the map of the floor of the Pacific Ocean. It is really interesting.

Dad feels real good now as the kidney stone finally went out. He went to the foot-ball game yesterday with Phil Stewart.

Mary started a short-hand class Friday and she is very

enthused over it. The session is for one month - every morning from 9 until 11:30.

Jeannie feels good now. I took care of her last week and she was feeling pretty good then. She weighs under 100 pounds and hopes to keep it that way.

I hope the cafeteria isn't too crowded and I will talk to you soon.

Love,
Mom.
